CARBON, ALBERTA, THURSDAY JUNE 12, 1947

Authorized as second class mail, Post Office Department, Ottawa.

TO REGISTER BLOOD DONORS

Alberta citizens to the age of 18 and 65, will be asked to register as voluntary blood donors when the Alberta Division, Canadian Red Cross Society in augurates Donor Enrolment week June 15 to 21st. The Red Cross donor enrolment committee in Carbon, under the chairmanship of Mrs. Frank Emery will be responsible for the registration of voluntary donors in this district.

Gone will be dieting days, when a prospective donor had to choose between a full meal and giving a donation of blood. Under the new system which has been developed by Dr. W. Stuart Stanbury, National director of the Red Cross free Blood Transfusion Service, the giving of blood is a simple half hour job with no pre-diet and no discomfort. But the results can not be measured in terms of time and personal convenience for your blood might save the life of your neighbor.

Residents of Carbon will be asked to register as voluntary donors during the week set for this purpose, June 15 to 21. The actual giving of blood will be undertaken at a time to be announced later when the mobile Blood Transfusion Clinic will visit this district. At that time the Local Red Cross branch will provide quarters and certain staff with the mobile unit providing all equipment and medical, nursing and technical staff.

This new humanitarian service which is already servicing the hospitals of British Columbia will provide blood and plasma, free of any charge whatsoever, to all hospital patients where the local institution has

agreed to provide the transfusion free. In this connection the Association of Alberta Hospitals have made it known that eventually all active treatment hospitals in Alberta will be included in the plan.

Through this extension of one of the greatest Red Cross wartime services, Alberta citizens and eventually everyone in Canada, needing transfusion treatment will share in one of the greatest miracles, the gift of life from a fellow citizen.

To keep this service operating in Alberta, the Alberta Division of the Canadian Red Cross society will be opening a depot or laboratory in Edmonton and a sub-depot in Calgary. These centres, staffed by fully qualified medical nursing and technical staff, will handle all the blood donated in this province down to the serving of blood and plasma to the hospitals.

Your gift of blood not more than two or three times a year, may mean the difference between life and death to a loved one or a friend. REMEMBER Donor Enrolment Week, June 15 to 21, and register with your Red Cross at that time.

BEN FOX HEADS LIONS

Ben Fox was elected president of the Carbon Lions Club at the regular meeting held in the Lions Den (next door to Nick Fury's residence) on Wednesday evening. Other officers are: vice president, E. Fox, 2nd vice president Chas. Nash; 3rd vice president, Finlay Code; board of directors, Maurice Switzer, Bill Ohlhauser (2 years), Norman Nash (1 year), and one director to be elected for one year period; secretary treasurer, Jack Adams, assistant secretary Cliff Ohlhauser; Lion Tamer, Art Weigum; Tail Twister, Rueben Ohlhauser.

Officers will be installed at the next regular meeting.

A Ladies' night is planned for next Tuesday evening.

FATHER'S DAY SERVICE AT CARBON UNITED

Father's Day will be observed with special service at the Carbon United Church next Sunday morning at 11 o'clock. All are welcome.

CARD OF THANKS

The members of the Carbon Legion branch wish to give their sincere thanks to Otto Martin and Bill Ohlhauser for their help and the use of their equipment in the cleaning up of our hall.

Warsaw's pre-war population of 1,300,000 has shrunk to 400,000.

The pension paid annually to the family of Lord Nelson, of Trafalgar fame, has been abolished.

A Kitchener grocer got into trouble for selling "spoiled" tellimburger but how could anyone tell.

CARBON NEWS

Mrs. M. Raymond and son of Millerville are spending a few days with friends and relatives in Carbon.

Mr. and Mrs. "Dusty" Poxon returned to Carbon on Sunday after a three week honeymoon spent at Vancouver and Victoria.

Carbon Lions Club have recently acquired the building next to Nick Fury's residence for a Lions Den.

The Junior Ladies' Aid met at the home of Mrs. J. Adams on Tuesday evening.

Mr. and Mrs. Bob Shaw were Calgary visitors this week.

Ray McMann spent a week in Carbon recently. Ray is now at Chilliwack B.C.

Don't forget the I.O.D.E. Rose Ball in the Scout Hall Friday, June 27th.

A morning service will be held in Christ Church, Carbon Sunday, June 15th, at 11 a.m. Canon T. B. Winter in charge.

A meeting of the Carbon Branch of the Canadian Legion will be held in the Legion Hall on Tuesday evening, June 17th at 8 p.m. Delegates to the District Convention will be selected. As this is an important meeting all members are urged to attend.

The Lions Clock was started at midnight tonight (Thursday).

LEGION MEETING

A special meeting was held in the Legion Hall on Friday June 6th. Several important subjects was dealt with. The hall has been painted inside and it is quite an improvement. We hope to have Saturday night dances going again within a week or so watch for announcements. All meetings in the future will start at 8 p.m. sharp and the business end must be over by 9.30 p.m. which will be followed by a social evening. Regular meetings every third Monday of the month.

Don't forget the Veterans Picnic to be held on July 1st. at the Red Deer River. Those wishing to go, get in touch with J. Cooper or M. Switzer and the number of persons in your group must be given. Picnic is opened to Veterans and families and the I.O.D.E. members. This will be an all day picnic so bring lots of lunch along.

Scientists at the University of Saskatchewan are making plastic out of flax.

Recorded sound first was introduced by Edison's phonograph did it.

Seven million feet of lumber have been salvaged from the Debert military camp.

Karl Marx, the German philosopher, died in London in 1883 and was buried in Highgate cemetery.

BARLEY ENTRY DATE POSTPONED

A late and unfavorable seeding has made necessary an extension for the final entry date for this year's \$25,000 National Barley Contest sponsored by the brewing and malting industries.

Chairman of the Contest committee, T. J. Harrison announces that the date for receiving entries has been extended from June 15 to July 15.

Entry forms are to be mailed as previously announced to the chairman of the provincial committees, in Manitoba to N. C. McKay, Department of agriculture, Winnipeg; in Saskatchewan to S. H. Vigor, Saskatchewan Field Corps commissioner, Regina; and in Alberta to A. M. Wilson, Alberta Field Corps Commissioner, Edmonton.

WORLD OF WHEAT

The Value Of Information

In this complex world people of any one country depend for their welfare to a great extent upon the production by people who live in other countries, and so accurate information about what is being produced in any one country is valuable for all to know. Accurate information enables Governments, merchants, industrialists, and farmers to plan ahead better than if such information were not available. All countries are most generous in giving information to Canadian people about what they are producing. Canadians, too, therefore, must do their share.

The official body that gathers information about production in Canada is the Dominion Bureau of Statistics. The Bureau is non political.

By this time the farmers of Canada will have received a yellow card entitled "Survey of Crops and Livestock". It would be, I suggest, greatly in the farmers' own personal interests, and of course of the interests of Canada if these cards are filled in as quickly and accurately as possible, and returned to the Dominion Bureau of Statistics.

Information given on the card is strictly confidential and in no circumstances is either the Taxation Department or any other Department of the Government permitted to have access to these cards. Farmers can rely on that, and so should not hesitate about filling in and mailing the cards quickly.

PLEASE PHONE OR BRING IN YOUR NEWS ITEMS

This newspaper can not make a house to house canvas for news, but it is always glad to have it phoned or handed in. We want all the news. We are just as pleased to mention your guests or your visit as to mention doings of your neighbors, but maybe your neighbors co-operated with us in getting the facts. Please let us have your news items. Our columns are always open to them. And remember they must be in before Tuesday noon, if at all possible.

COST OF PRICE CONTROL

A report tabled in the house of commons shows that over \$657 million dollars was spent in the war and postwar years to maintain price control and subsidies. Of this amount, the department of agriculture reported it had paid \$131,809,000 to assure production or distribution of such things as milk, creamery butter, fertilizer, alfalfa meal and seed. Indirectly the department feels that it has helped to maintain the price structure with the subsidization of farm products.

Penguins' eggs, considered a delicacy by some South Africans, must be boiled for 20 minutes, mashed, and flavored with pepper, salt and vinegar to be edible.

McLeod, Pigeon and Sylvan lakes as well as Edmonton. Each one of these schools lasts four days. The most modern methods of visual education are used and comprehensive and complete sessions on theory and practical skills are given. The Canadian Red Cross will bear the expense of bringing candidates into the schools. Those interested are

requested to apply through their local Canadian Red Cross Branch.

DDT AND FORAGE CROPS

Although DDT is not used to any extent in Alberta for the control of insect pests on forage crops, an interesting side-light on the effect of treated forage on animal products comes from the United States.

Dr. F. N. Annand, chief of the Entomology Bureau, United

States Department of Agriculture, reports there has been some concern over secretion of DDT in milk because it concentrated in the butterfat so that butter may have fairly high quantities. The United States Department of Agriculture is not recommending DDT for forage crops to be fed to milk cows because of that hazard.

Officials of the Dominion Department of Agriculture advise that the above has no bearing on hornfly control since only 0.25 to 0.5 percent DDT in wettable powders are applied to cattle for the control of hornflies. The danger referred to is from heavy dusting of pastures with DDT.

A swashbuckling hockey team from the Yukon were defeated by the Ottawa Silver Seven in a Stanley Cup affair in 1905, the highest scoring game, 23 to 2.

QUARTERLY DEAN-ERY MEETING

The quarterly meeting of the Drumheller district Catholic Youth Federation was held in Strathmore Friday evening June 6th. Towns represented were Beiseker, Strathmore, Rockyford, Drumheller, and Calgary.

A very successful meeting was held, after which a few Strathmore C.Y.O. members put on a concert. A dance followed with lunch served at midnight by the Strathmore C.Y.O.

All reported a very enjoyable evening.

AWARD FOR STUDENT

The Education Committee of Beiseker Lions Club decided recently to reward the grade IX pupil having the highest standing in the coming examinations. This will take the form of a cash award of \$25.00 in recognition of work well done and as an incentive to further efforts in the field of higher education.

All Grade IX students of the Beiseker Dist. including the Level Land School will be eligible.

It cost two billion dollars to complete the atomic bomb.

FOR BETTER ALFALFA HAY

Farmers who have alfalfa to cut for hay are advised by A. M. Wilson, Field Corps Commissioner, to have their equipment ready in good time so that no delay will occur when haying time arrives. Early cutting of alfalfa together with quick haying or stacking methods conserve the nutritional value of the crop.

First cutting of alfalfa should be made soon after the first flowers appear. If the crop is left beyond this stage much of the nutritional value will be lost. Leaves make up about 55 percent by weight of the alfalfa plant and contain about 70 percent of the total protein of the entire crop. If the leaves are lost by delayed haying or in hauling operations value of the feed is greatly reduced.

MACHINERY FIELD TILLAGE DAYS

Minor adjustments may mean major improvements as far as work of an implement is concerned. With a view to helping Alberta farmers to get the best possible service from their one-way discs and other tillage implements, the Alberta department of agriculture is

conducting a series of Field days in various parts of the province. At each of these meetings a specialist in farm machinery is in attendance to demonstrate correct hitching, proper adjustment, and to discuss individual problems of those attending.

These Field Days are already underway and will continue through June and into July. Full particulars of time and place may be obtained from District Agriculturists.

Italy hopes to recapture its per war tourist trade.

OFF THE RECORD

Various opinions are being expressed about the serious food crises in Germany but we would be inclined to judge the the figures rather than opinions.

CARBON

INSTRUCTORS URGENTLY NEEDED

Reports received from numerous sources here in the Province by Mr. J. A. McLeod, Chairman of the Swimming and Water Safety Committee, Alberta Division Red Cross Society, clearly indicate that swimming instructors are in great demand but short supply this year.

In Alberta there are a good many communities with swim-

ming pools as well as locations with excellent natural facilities. These are all used extensively but unfortunately none of these facilities or swimming pools have definite programs that are aggressive enough or far-reaching enough in their results—principally because good swimmers qualified as instructors who could render service to their communities are at a premium.

Swimming is the unanimous choice of doctors, college sport

directors, physical educationalists and others, as a form of recreation that contributes more to every stage of mental and physical progression, and development than any other sport or recreation yet known to man.

The correct instruction of swimming is an art and those participating usually find it interesting as well as beneficial to both themselves and others. Instructors, by improving their skill and demonstrational abilities, become a part of the national group of specialists who are aiming to reduce the yearly drowning toll by offering correct instruction of Swimming and Water Safety skills. In addition they offer an essential form of physical education.

Possibly the greatest satisfaction that instructors gain is that of watching their youngsters swim correctly—safety—and knowing that they, the instructors are indirectly responsible for the preservation of human life.

For the many communities that have an urgent need for instructors and a definite program, the Swimming and Water Safety Program of the Canadian Red Cross is the answer.

The programme of the C.R.C. depends upon young people for the Water Safety Instructors. Swimmers who can swim all of the strokes with reasonable ease and style, have leadership ability or instructional tendencies, a knowledge of lifesaving and are desirous of devoting leisure time to the instruction of others are cordially invited to take Leadership Courses and qualify as Water Safety Instructors.

Courses have already been held at Calgary and Edmonton this year and candidates have come from those cities as well as from outside points such as Banff, High, River and Edson. Additional Leadership Schools will be held in July at the following centres: Medicine Hat.
